His Management of Them Indicates His Mental Nature.

"If you wish to know why Senator Hanna is a success, watch his feet.' This remark was made the other day by an astute Republican politician. who has learned to study men from many "standpoints." "Just why the feet should be the index to the man, perhaps, is not apparent at once," he continued, "but here is what you will see if you will take the trouble to vatch Senator Hanna's feet:

"He will be standing during as vening in the best hotel in the city n which he happened to be stopping. He will never be given an opportun ity for idleness. A gentleman and lady will step up and introduce a friend, others will follow, and for hall an hour or longer the genial Ohio Senator will stand shaking hands with a procession of people, exchanging pleasantries with old friends, and making new acquaintances. During this time the pedal extremities of the Buckeye statesman-and these extremities are in themselves a cause of admiration because of their shapeliness and neatness of dress-will never move from where they have been planted, not so much as a hair's

### PHILANTHROPY!

The Unselfish Labors of Mr. and Mrs. A. Roy Miller Save Many Children's Lives.

They Earn the Gratitude of Hundreds of Parents in Owensboro.

A. Roy Miller has been connected with the well known wholesale and retail drug firm of The Mullen & Haynes Co. for several years. He is known to be one of the best prescription druggists in the State. His reputation is already established, and whatever he says is not for a moment doubted by the people who know him.

Like all men who shoulder the responsibilities of a big business, Mr. Miller is always busy, but he found time the other day, when asked what he things of Owens Pink Mixture and its use among children, to assert his firm belief, based on his own experience, that it will do just what is claimed for it. He even goes further and says that no better remedy can be obtained for use in aggravated cases of bowel trouble among older people.

Druggists are usually slow to recommend any particular medicine, either over their own signature or during an interview. They will often say that what will act well and produce the desired results with some individuals may not be successful on other persons, but Mr. Miller states that there is always an exception in the case of Owens Pink Mixture.

persons, but Mr. Miller states that there is always an exception in the case of Owens Pink Mixture.

"Really," said Mr. Miller to our reporter, "I don't think I can do the matter justice. It takes my wife to tell of the virtues of Owens Pink Mixture. If there is any family in our neighborhood with a little child, to which she has not recommended the use of the medicine, I don't know it. At any rate, we have used it to our great satisfaction on the only two children that we have living. The girl is now seven years of age, and our boy is five. They are both hale and hearty, and we never had any trouble during the second summers with them or when they were teething. They took the medicine with the same delight that would be manifested by a child when eating anything that it is particularly fond of.

"We lost our first child from some kind of wasting bowel trouble. We knew nothing of Owens Pink Mixture then. We did everything possible to save the life of the loved one, but our efforts were in vain. The little fellow died. No words can paint the grief of a mother over the loss of her first born. But, since we have used this medicine with such wonderful success on our two succeeding children, we are both firmly convinced that had we used it on our first born, he would have been alive to-day. Now, this is a pretty strong assertion for a person to make, but I firmly believe it.
